The Great Arche - 15.-18.7. 2021

INTERNATIONAL ONLINE PSYCHODRAMA CONFERENCE

Webpage: www.arcapsychodrama.org

Light and Shadow, Hope and Fear in Dreams, Myths and Fairy Tales: online groupwork with Jungian, Analytical and Classical Psychodrama

Vision: The name of the project responds to the current thread for our planet and all its living beings while we have hurt our nature within us and around us. We are connected: anima mundi. It is not clear if our efforts are sufficient to repair it. But – we will try to do so as Noah did.

At such a critical point our collective consciousness and its archetypal essence resonate to reconnect us with healing symbols and dreams. They assist us while we navigate with our Arche to survive and to respond to the cultural fault lines and the alienation of our time. Let's work together to do our part to save the creation entrusted to us
